	Job Performed 5/13/17 Drove to SLOB yard to pickup an empty for the pull the night before. Next morning I drove to location, waited for crew to kill the well and rig up the rig. They killed the well and started to rig up. After rigging up they tied off the sheaves and took a lunch break. After lunch we pulled the cable out of the well and got to the equipment. I finished up the ticket, left location to SLOB yard to drop off the cable. I got my ticket signed and drove home.	0.00	0.00
