

CreditSuppliers™

Funding for Your Construction Project Materials

Our Trade Credit Program

We provide revolving lines of trade credit to contractors for the purchase of construction project materials on a job-by-job basis.

Use our funding to:

- + Qualify for fast-payer discounts
- + Extend your payback terms
- + Free up working capital for other business expenses
- + Take on bigger and better jobs
- + Grow your business

How it works for each job:

- We'll establish a job credit limit based on your anticipated material costs.
- You'll submit your P.O. to CreditSuppliers every time you need to make a purchase.
- We will officially place the order with your supplier and pay them in 10 days or less.
- You'll be given up to 150 days to pay down each invoice.
