Instant Account Verification
Source Code Starter Kit Questionnaire

Please answer the following questions in addition to completing the Source Code Starter Kit Release Policy.

1. Do your software developers have access to your web server and web site source code?

2. Is your web site built in .NET or PHP? (Not essential, but helps)

3. Do you have a developer who is competent with JavaScript, as well as .NET or PHP?

4. Do you have a developer who is competent working with SOAP/XML web services?

5. Do you have an English-speaking technology team member available between 8am and 4pm Mon-Fri Pacific Time?

Instant Account Verification
Source Code Starter Kit Release Policy

I,_____, understand and acknowledge that Clarilogic, Inc. d/b/a/ DecisionLogic

("DecisionLogic") will release to me a source code starter kit for purposes of integrating

_____ ("Company") with the DecisionLogic Instant Account Verification

service for my online website application(s).

I understand that at **<u>no time</u>** should this kit be published or accessible online. I am committed to

responsibly managing the source code starter kit and its contents provided. I understand that by

publishing this kit online my account keys and all sensitive banking information obtained, may accessible

by the public. I will take all necessary steps to ensure proper use of this source code starter kit.

DecisionLogic reserves the right, upon discovering any violation of this policy, to disable my account

until any pages containing the source code starter kit are completely removed.

I have read and understand the DecisionLogic Source Code Start Kit Release policy as written above and

agree to adhere to it.
